THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

DETAILED ACTION

This office is in response to remarks and amendments filed September 10, 2010. Claims 1-8, and 10-22 are pending.

Drawings

The drawings submitted on July 26, 2007 are acceptable.

Response to Arguments

Applicant's arguments filed on September 10, 2010 have been fully considered and previous rejection has been withdrawn.

Allowable Subject Matter

Claims 1-8, and 10-22 are allowed over prior arts.

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations, as recited in independent claims and subsequent dependent claims.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to system of dynamically selecting combinatorial logical circuit for performing different sets of logical operations on input data to produce output data to increases level of protection against power analysis attacks.

The method involves for processing cryptographic data in the electronic circuit and dynamically selecting a combinatorial logical circuit from set of combinatorial logical circuits (101,103,105) for performing different sets of logical operations on the input data (129) to produce output data (131) for protection against power analysis attacks.

Thus, the cited prior art does not explicitly teach or suggest an electronic circuit for cryptographic processing, comprising:

a first combinatorial logical circuit, having an input, arranged to perform a first set of logical operations on an input data at the input and to produce a corresponding first output data, the first output data having a first functional relation to the input data for said input data within a given range, and

a second combinatorial logical circuit, having an input, arranged to perform a second set of logical operations on an input data at said input and to produce a corresponding second output data, the second output data having a second functional relation to the input data, said second functional relation identical to said first functional relation for said input data within said given range,

wherein the first set of logical operations is different from the second set of logical operations, and

a selector for receiving a given input data and dynamically selecting from among the first combinatorial logical circuit for performing the first set of logical operations on the given input data and the second combinatorial logical circuit for performing the second set of logical operations on the given input data and producing output data, and

wherein the selecting includes inputting the given input data to the input of the

selected one of the first and second combinatorial logical circuits and outputting a selected first cryptographic processing output, the selected first cryptographic processing output being the output of the selected one of the first and second combinatorial logical circuits.

The examiner has found that the prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims. The prior art of record fails to teach or suggest a system and method as mentioned above.

An updated search did not reveal any prior art that would anticipate or make obvious the currently claimed invention.

1. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
